I'm your WMS.

The warehouse is my home,
I am aware of what comes in,
what goes out, and where
every pallet is located,
all in real time.

I guide you step by step.

Benefits

- Fewer errors — greater accuracy.
- Faster deliveries and smoother workflows.
- Real-time stock and movement overview.
- Full product traceability.
- Increased productivity and greater customer service.
- Growth without limitations.

Before ArtIE

Daily life in the warehouse
feels like a patience game.

- ✗ Reception chaos and faulty stock counts.
- ✗ Overfilled storage or missing pallets.
- ✗ Picking delays and errors.
- ✗ Inventory takes that disrupt workflow.
- ✗ Untraceable batches or serial-numbers.
- ✗ Customer returns with no records or control.

Error-free packaging.

I'm ArtIE, and I make sure everything is perfectly organized.

Before the box closes, I've already concluded the check.

Benefits

- Fewer errors and returns.
- Full control of the packing process.
- Faster order completion.
- Accurate deliveries and satisfied customers.
- Transparency, traceability, and real-time ERP updates.
- Total shipment reliability.
- Compliance with international standards (GS1).

Before ArtIE

The packing line slows down the entire operation.

- ✗ Wrong items, wrong boxes, wrong quantities.
- ✗ Manual checks that delay the process.
- ✗ No clarity on what was shipped and to whom.
- ✗ Customer returns and complaints that waste time and damage your reputation.
- ✗ Difficulty tracking each order during packing stage.

With ArtIE

Every order is shipped verified, precise, and on time.

- ✓ I scan barcodes or QRs of every product before packing.
- ✓ I verify orders automatically in real time.
- ✓ I generate labels & packing lists for every box, pallet, or shipment.
- ✓ I record every action securing full traceability.
- ✓ I automatically update your ERP once packing is completed.
- ✓ I comply with international labeling standards (GS1 & SSCC).
- ✓ I issue detailed packing lists per box.

Routes that make sense.

You input your orders and vehicles — I plan your routing.

Deliveries that are time and cost effective.

Benefits

- **Lower fuel and route-time costs.**
- **More deliveries with fewer kilometers.**
- **On-time deliveries and satisfied customers.**
- **Calm and efficient distribution team.**
- **Flexibility for last-minute changes and unexpected issues.**
- **Better fleet and dispatch control.**

Before Artie

Each delay costs time, money, and reliability.

- ✗ Trucks drive in circles resulting in unnecessary mileage & delays.
- ✗ Drivers improvise without a clear delivery order.
- ✗ Customers wait while you search for lost routes.
- ✗ Last-minute changes causing chaos.
- ✗ Needless rise of fuel costs.

With Artie

Your routes become clever, dynamic, and effective.

- ✓ I group orders into zones and optimal routes.
- ✓ I calculate loading/unloading order per vehicle.
- ✓ I recalculate routes in real time if changes occur.
- ✓ I give clear instructions to drivers.
- ✓ I monitor deliveries, time, and deviations with precision.
- ✓ I automatically update your ERP and customers on delivery progress.

ARTIE PRODUCTION

Production in rhythm.

I know what production means. From raw materials to final products, I track, coordinate, and keep you one step ahead, always.

Your line runs in sync and I make sure not a second is lost.

- 
- Fewer errors and production disruptions.
 - Complete batch and material traceability.
 - Accurate real-time visibility.
 - Saving time and resources.
 - Compliance with standards and certifications.
 - Higher productivity and flexibility.

Benefits

Before ARTIE

Production feels like a puzzle with missing pieces.

- ✗ Raw materials arrive late at the line.
- ✗ ERP, WMS, and production are not integrated.
- ✗ Traceability is a nightmare.
- ✗ Delays and errors reduce productivity.
- ✗ Poor communication between warehouse, packaging, and production.
- ✗ Pallet labels written by hand.
- ✗ Data is entered multiple times by different individuals.
- ✗ Quality tracking is done in Excel files.

With ARTIE

Your production gains momentum, consistency, and control.

- ✓ I integrate ERP, WMS and production into one system.
- ✓ I track raw materials, incomplete and finished product flows in real time.
- ✓ I automatically alert you on shortages and deviations.
- ✓ I print SSCC labels directly on the line.
- ✓ I record production time, quantities and labor hours for accurate costing.
- ✓ I track batches and expiration dates maintaining detailed traceability.
- ✓ I prepare every report for certification systems (ISO).

Indicators that speak.

I'm your BI.
I merge ERP, WMS, e-shop,
and production into one
clear picture.

**I show what's happening
now and what's coming next.**

Benefits

- One truth for all, same numbers, same definitions.
- Real-time enterprise overview on any and every level.
- Faster, data-driven decisions.
- Full visibility from order to delivery.
- Transparency and trust across departments.

Before ArtIE

Decisions are based on instinct, not data.

- ✗ Data scattered in Excel, ERP and multiple systems.
- ✗ Delayed decisions without full visibility.
- ✗ Difficulty detecting deviations before they escalate into disruptions.
- ✗ Inconsistent KPIs across departments.
- ✗ Static reports with no ability for in-depth analysis.

With ArtIE

Information becomes a strategy tool — not just numbers.

- ✓ I merge all your data into one reliable model.
- ✓ I deliver live dashboards and key KPIs for the warehouse.
- ✓ I highlight deviations and trends before they turn into disruptions.
- ✓ I compare actuals, budgets, and forecasts in real time.
- ✓ I apply role-based access for security and transparency.
- ✓ I keep track of employee productivity, goods movement speed, and seasonality.
- ✓ With the power of BI, I forecast supply chain demand.
